

Missed Work. Missed School. Missed Out.

Flu can make you miss the things you need to do. Even worse, flu complications can lead to hospitalizations and death. Vaccination is the best way to protect yourself and your loved ones from influenza.

Get your seasonal flu vaccine and find out if CDC recommends that you also get the vaccine against 2009 H1N1 flu (sometimes called "swine flu").

Don't miss anything. Get vaccinated!

For more information call 1 (800)-CDC-INFO or visit www.flu.gov
